Notice of Fee Increase on October 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after October 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on October 1, 2003. See Revision of Patent Fees for Fiscal Year 2004; Final Rule, 68 Fed. Reg. 41532, 41533, 41534 (July 14, 2003).

The current fee schedule is accessible from (<http://www.uspto.gov/main/howtofees.htm>).

If the fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due" but not the correct amount in view of the fee increase, a "Notice of Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice of Pay Balance of Issue Fee," if the response to the Notice of Allowance is to be filed on or after October 1, 2003 (or mailed with a certificate of mailing on or after October 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously-paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Effective October 1, 2003, 37 CFR 1.18 is amended by revising paragraphs (a) through (c) to read as set forth below.

Section 1.18 Patent post allowance (including issue) fees.

- (a) Issue fee for issuing each original or reissue patent, except a design or plant patent:
- By a small entity (Sec. 1.27(a))..... \$665.00
 - By other than a small entity..... \$1,330.00
- (b) Issue fee for issuing a design patent:
- By a small entity (Sec. 1.27(a))..... \$240.00
 - By other than a small entity..... \$480.00
- (c) Issue fee for issuing a plant patent:
- By a small entity (Sec. 1.27(a))..... \$320.00
 - By other than a small entity..... \$640.00

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on September 11, 2003 has been entered.

REASON FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: prior art fails to teach or fairly suggest an image processing method comprising; an evaluation step, which calculates a value representing an irradiation end, the representative value is calculated from first differential values; a step of judging an edge point of an irradiation area from the value calculated in the evaluation step as recited in independent claims 1, 23 and 26.

Although Takeo (US 5,091,970) discloses that the presence or absence of a limited irradiation field is judged by comparing a representative value of an image signal, which corresponds to an overall or part of peripheral portion, with a representative value of the image signal corresponding to the overall area or approximately a center portion. However, Takeo fails to judge whether an irradiation

Art Unit: 2625

of peripheral portion. Moreover, Takeo fails to judge the location of the irradiation end in the image.

As to independent claims 9, 24, 27 and 43 – 45, prior art fails to teach or fairly suggest an image processing method including an evaluation step, which calculates an evaluation value for evaluating positional relations among coordinates of edge point candidates; a judging step of judging whether photographing is performed by an imaging device having an irradiation diaphragm function in a state of irradiation diaphragm or in a state of no irradiation diaphragm, base on the evaluation value calculated in said evaluating step.

Although, Takeo discloses that candidates for a contour of an irradiation field are obtained, and that the contour of the irradiation field is obtained from among the obtained candidates. Takeo detects the contour of the irradiation field from the photographed image having a previously diaphragmed irradiation area. However, Takeo fails to disclose a judging step of judging whether photographing is performed by an imaging device having an irradiation diaphragm function in a state of irradiation diaphragm or in a state of no irradiation diaphragm, base on the evaluation value calculated in said evaluating step as recited in independent claims 9, 24, 27 and 43 - 45.

Now claims 1-9, 23, 24, 26, 27,32, 33, 35, 37 – 39 and 41 – 45 are allowed (renumbered as claims 1 – 24).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2625

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
